

Multi-agency child protection training

I have 21 years of social work experience in child protection, fostering & adoption, training and management. I have over 10 years of experience in delivering training to social workers, social care support staff and multi-agency groups.

I specialise in delivering multi-agency child protection training. In recent years this has involved child protection training to the fire service, schools, social care support staff and both the voluntary and private sector. I can deliver a range of training courses such as:

- **Basic Child Protection**
- **Common Assessment Framework**
- **Understanding & contributing to child protection investigations**
- **Supervising Staff who work with vulnerable children and their families**
- **The legal framework for protecting children**

I am happy to discuss the needs of your agency to develop the training you require. For smaller organisations I have the flexibility to work with small partnerships of agencies to meet collective needs.

If the issues you face are not covered in the list above I will be happy to develop something unique to your agency.

All training is delivered within a framework of anti-oppressive practice.

In addition to designing and delivering training I am also a qualified Social Worker, registered with the GSCC.

If you would like more information please contact me on 07929 941302
